

Carter Campbell

Web Developer

Greensburg, PA 15601

lawsoncards.7@gmail.com

+1(816) 7567630

Professional Summary

Hi! I'm a full-stack developer with expertise in a wide range of programming languages and frameworks, including Java (SpringBoot), Go, C# (Visual Studio), JavaScript, Swift (XCode), API Integration (Mulesoft), RAML, JSON, C++, HTML, HTMX, and CSS.

I developed my skills through an object-oriented programming foundation, building from the ground up starting with Java and expanding into a variety of languages and frameworks.

I recently completed my Bachelor of Science in Software Development at Grand Canyon University (April 2025) and am now actively beginning my professional career in software development.

Authorized to work in the US for any employer

Work Experience

Software Developer Intern

Go Carrera (Skilled Pro Alliance Inc.)-Overland Park, KS

May 2024 to September 2024

- Used a GO/HTMX stack to build a UI that communicates with back-end services and allows users to authenticate completed training/certifications on their profile.
- Participated in daily SCRUM meetings to assess progress and needs.
- Collaborated on code with multiple senior developers through GitHub, Microsoft Teams, and Jira to build application features and design system models.
- Wrote unit tests for UI components and back-end service call functionalities to ensure reliability and maintainability.

Integration Developer Intern

Burns & McDonnell-Kansas City, MO

May 2023 to September 2023

- Utilized APIs to integrate data into company or client applications using the MuleSoft Anypoint Platform.
- Participated in daily SCRUM meetings to assess needs, identify blocking tasks, and explain my current project work for the day.
- Engaged with the company through various events and volunteering.
- Learned and followed the company's full Software Development Life Cycle (SDLC), from initial idea to proof of concept (POC), to design, implementation, testing, and final deployment.

Web Designer

Haus Roofing-Lenexa, KS

December 2022 to January 2023

- Site deprecated.
- Hired to build website for client using Wix. Met client's criteria during a designated timeline. Worked with HTML and CSS on portions of the site.

Web Designer

Noblehaus Living-Lenexa, KS

September 2022 to November 2022

- noblehauskc.com
- Contracted to improve the website (Wix) to include features like social media links, live chat boxes, and an overall UI upgrade/re-design.

Education

Bachelor's degree in Software Development

Grand Canyon University-Phoenix, AZ

September 2021 to April 2025

High school diploma

Lawson High School-Lawson, MO

August 2017 to May 2021
